

Mayank Kumar

Full Stack Developer & AI Enthusiast

mayankkumar2777@gmail.com | +91 9310900626 | India | [linkedin.com/in/mayank-kumar-379430352/](https://www.linkedin.com/in/mayank-kumar-379430352/)

Skills

Java, C++, Python, React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Git, Linux, Postman

Work Experience

Society Head

Algorithm Society of NSUT | Delhi

Oct 2024 - Present

- Led a team of 7 members to manage **technical events and coding competitions**, increasing participation by **65%**
- Coordinated with multiple departments to ensure **smooth execution of large-scale events**
- Mentored students in **data structures, algorithms, and competitive programming**
- Improved engagement through structured **problem-solving sessions and hackathons**

Ethical Hacking

CDAC | Noida

Sep 2024 - Oct 2024

- Conducted **Vulnerability assessment** using OSINT tools, identifying **150+ security vulnerabilities**
- Performed **API analysis and reconnaissance** on domains and email systems to detect potential attack surfaces
- Improved system security by recommending **patches and risk mitigation strategies**
- Applied **cross-platform tools** for network scanning and threat intelligence

Education

B.Tech in ITNS | CGPA - 7.35

Aug 2023 - May 2027

Netaji Subhas University of Technology, Delhi, India

Coursework - Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks

Project Experience

GreatWear

- Developed a **full-stack web application** using React, Node.js, and Firebase for fashion content sharing
- Built **secure authentication system** with role-based access control
- Designed RESTful APIs for **user data management and content delivery**
- Integrated **Cloudinary for media handling**, reducing load time by ~25%

Appointment Booking Platform

- Integrated **Google Gemini AI** to provide diagnostic suggestions, reducing assessment times by **30%**.
- Developed a smart scheduling algorithm that decreased patient wait times by **40%**.
- Built a doctor recommendation engine achieving over **95% matching accuracy**.
- Deployed a full-stack solution using React, Node.js, and Firebase with role-based access control.

Mentor Signal

- Built a **scalable predictive analytics system** handling **10,000+ users**
- Developed ML models (XGBoost, Scikit-learn) achieving **90% prediction accuracy**
- Created FastAPI microservices for **real-time data processing**
- Implemented secure backend with **role-based access control and API security**
